Kenz Cardico 1215 features

- 8.5 inch color WVGA touch screen for clear view of ECG and intuitive operation
- Slim and lightweight design for easy mobility
- Auto, Manual and Long-term recording modes
- 3, 4, 6 or 12 channel ECG recording with analysis
- Z-fold or Roll paper in A4 and US letter sizes
- Membrane alphanumeric keyboard for easy cleaning and maintenance
- Internal memory for 1,000 ECG data and optional removable USB media
- Data transmission via LAN to Kenz ECG Data Viewer CVS-03
- Barcode and magnetic card scanning options
- Autonomic nervous system test in Long-term recording mode

New Function

- Emergency cases alert
  - Automatic notification with display messages and audible alert in case of abnormal ECG analysis results such as acute MI and third degree AV block that need to pay an immediate attention.

Specifications

- Brand: Kenz
- Model: Cardico 1215
- 8.5 inch color WVGA touch screen
- Supports 12 mode and 12 channel's analysis
- Internal memory for 1,000 ECG data
- Optional removable USB media
- Data transmission via LAN to Kenz ECG Data Viewer CVS-03
- Barcode and magnetic card scanning options

Options

- Data transmission via LAN to Kenz ECG Data Viewer CVS-03
- Barcode and magnetic card scanning options
- Internal memory for 1,000 ECG data
- Optional removable USB media

**Simple operation and expand your capabilities**

**Display**
8.5 inch color WVGA display for superior visibility of ECG waveforms

Precision display of ECG waveforms on the grid makes it easy to review P-wave and ST segment on the screen. Graphical on-screen lead-off information to eliminate poor ECG recording quality.

**Arrhythmia**

Long-term mode for screening arrhythmia

Recording lead II and V1 for an extended time to detect SVPC and VPC.

Capturing arrhythmia displayed on the screen

Just pressing the Freeze key to capture the arrhythmia displayed on the screen and start to record a simultaneous 12 lead ECG, inclusive of the captured arrhythmia.

**Printed reports**

Seamless connectivity with ECG data management system

Cardio 1215

The Kenz Cardio 1215 is an advanced 12 channel digital interpretive electrocardiograph with the versatile functions to fulfill the requirements for healthcare professionals and enhance productivity in hospitals and clinics.
